| 3. Objective(s): - Implement tabletop-tested simplex radio communication plan to establish direct transmission pathways from Century Park to the Emergency Operations Center (EOC). - Relay messages from the Command Post to the EOC using designated relay points to ensure reliable coverage across the operational area. - Utilize only simplex radio frequencies, explicitly excluding repeater-based technologies to simulate field conditions and maintain tactical simplicity. - Enhance deployment strategies by evaluating relay point placement, operator coordination, and message throughput during the exercise. | | | | | | | | | | | | | | | | | |
| 4. Operational Period Command Emphasis: This is a communications exercise only. The Simulated Emergency Test (SET) will run for approximately 30 minutes. Upon completion, all deployed operators will return to the Emergency Operations Center (EOC) for a debrief. Operators are encouraged to document any transmission issues or relay challenges for discussion during debrief. | | | | | | | | | | | | | | | | | |
