April 24, 2026

Dear Supporter of Local Preparedness,

The Sweetwater Amateur Radio Club is proud to invite you to our upcoming ARRL Field Day, held this year on June 27<sup>th</sup> -28<sup>th</sup>, 2026 at Green River WWCC Campus. Field Day is the largest emergency communications exercise in North America, bringing together thousands of amateur radio operators to demonstrate how resilient, community-driven communication works when traditional systems fail.

Here in Sweetwater County, where weather, distance, and terrain can challenge even the best infrastructure, Field Day is more than an event, it is a demonstration of readiness. Throughout the weekend, our volunteers will deploy field stations, operate off-grid equipment, and welcome the public to learn how amateur radio supports our community during emergencies.

Our club works closely with Sweetwater County Emergency Management, assisting with communication capabilities during training exercises, community events, and preparedness initiatives. This partnership reflects our mission as a 501(c)(3) nonprofit: to strengthen public safety, expand technical education, and build resilient communication networks for our neighbors.

Field Day is also an opportunity for community members and local organizations to see firsthand the impact of volunteer-driven service. Many who attend choose to support our mission in various ways, through time, expertise, or resources. All of this support help us maintain equipment, train new operators, and remain ready to serve when needed.

We would be honored to have you join us at Field Day and see the work we do for Sweetwater County. Your presence and interest mean a great deal to our volunteers and to the community we serve.

Best regards,

*Zach Gunyan*

Zach Gunyan, KE7WYG
